INTRODUCTION TO CUSTOM BLEND LIQUID FOUNDATION AND MINERAL POWDER

MOTIVES

WHY CUSTOM BLEND?

- Customizing products accommodates everyone's unique set of traits: coloring, skin type, age, lifestyle, personality and preferences
- Guarantees 100% customer satisfaction
- Builds unwavering loyalty and makes you, the makeup artist, indispensable
- Unbelievable profitability and easy inventory control
- Gives your business prestige and exclusivity
- Easy promotion and marketing
- Creates excitement and fun!

THE CUSTOM BLEND CONCEPT

- Foundation/powder creates the canvas to which all other products are applied, so it is essential that this step is done right.
- Foundation/powder are the hardest products for women to find.
- When properly color-matched, foundation and powder should be invisible. They should make your client's skin look flawless and smooth yet not feel heavy.

COLOR THEORY

Mastering the color wheel will allow you to customize and create any color for any skin tone.

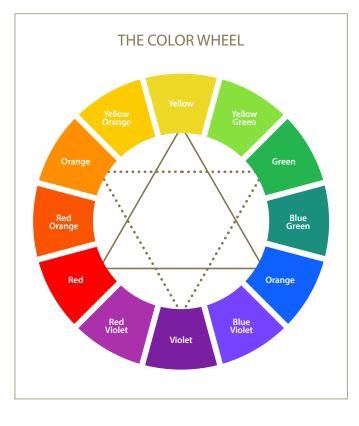

PRIMARY COLORS:

RED-BLUE-YELLOW

SECONDARY COLORS:

Made from mixing equal parts of the primary colors together. RED + BLUE = VIOLET BLUE + YELLOW = GREEN RED + YELLOW = ORANGE

Opposite colors neutralize/cancel each other. GREEN—neutralizes red PURPLE—neutralizes yellow BLUE—neutralizes orange

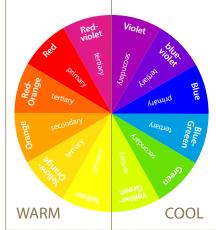

TERTIARY COLORS:

These six colors are made by combining a PRIMARY and an adjacent SECONDARY color. Thus, you have: YELLOW—ORANGE ORANGE—RED RED—VIOLET VIOLET—BLUE BLUE—GREEN GREEN—YELLOW

WARM AND COOL

The color wheel can be divided into WARM and COOL colors. By understanding the differences, you'll better understand how to color-match foundation and concealers on various skin tones.

COOL COLORS

Cool colors give an impression of calm, and are soothing. They include:

- VIOLET
- BLUE
- GREEN
- Variations of each
- In makeup artistry, the same theory applies to the color GREEN as it does RED.
 - If a green has a more yellow undertone, then it is warm.
 - If a green has a more blue undertone, then it is cool.

WARM COLORS

Warm colors are bright, passionate and energetic. They include:

- RED
- ORANGE
- YELLOW
- Variations of each
- In makeup artistry, reds can be both cool and warm.
 - If the red is blue based, it is cool.
 - (a red with a purple or blue undertone)
 - If the red is orange based, it is warm.

| Cool Light | COOL | VS. | WARM | Warm Light |
|-------------|--|-------------|---|-------------|
| | You have a pinkish cast to your skin (especially in cold weather). | FAIR | You have a greenish cast to your skin (especially in cold weather). | 00 |
| Cool Medium | You have more blue veins than green veins on your inner wrist. | R TO MEDIUM | You have more green veins than blue veins on your inner wrist. | Warm Medium |
| | You burn easily in the sun. | UM – | You tan easily in the sun. | |
| | You have a bluish cast to your skin. | | You have a chocolate cast to your skin. | ŇĚŔ |
| Cool Deep | You have more blue veins than green veins on your inner wrist. | DEEP | You have more green veins than blue veins on your inner wrist. | Warm Deep |
| | You burn easily in the sun. | | You tan easily in the sun. | 3 |

DECIPHERING BETWEEN WARM, COOL AND NEUTRAL SKIN TONES

COOL SKIN TONE

This skin tone has a little pink (rosiness). They tend to burn easily under the sun. People who look good in silver jewelry and accessories. When they wear a cool undertone red lipstick, they look brightened up. Most of the time, their veins look blue in color (*take a look at your wrist under natural light*).

WARM SKIN TONE

This skin tone has a yellow undertone or golden-olive undertone. They tent to tan easily under the sun. People who look good in gold jewelry and accessories. When they are wearing a warm (orange) undertone red lipstick, they look brightened up. Most of the time, their veins look green in color (*take a look at your wrist under natural light*).

NEUTRAL SKIN TONE

This skin tone has both pink and golden undertones. They look good in both gold and silver jewelry and accessories. Most of the time, their veins look blue and green in color (*take a look at your wrist under natural light*).

DEPTH OF COLOR (LIGHT/DARK)

- Fair skin: Light Ivory, Porcelain, Sand, Pale Peach or Rosy undertones.
- Medium skin: Yellow, Gold, Beige, Natural, Red-Olive, Yellow-Green
 undertones.
- Medium-dark skin: Honey, Cameo, Copper, Olive, Tan, Golden-Olive, Caramel undertones.
- Dark skin: Orange-Brown, Red-Brown, Walnut, Almond, Blue-Black, Ebony, Dark Chocolate undertones.

EFFECTIVE COMMUNICATION TO MAXIMIZE CONSULTATION LIQUID FOUNDATION AND MINERAL POWDER

WHY COMMUNICATION IS IMPORTANT

- The first step is to strengthen your skills in communication.
- Get to know your clients better by learning how to ask the right questions.
- Develop a rapport and a relationship with your clients.
- If you are able to uncover and understand what your clients want/ need, then you can provide them with a solution.
- Always ask open-ended questions. This will create a dialogue with your clients. Open-ended questions begin with who, what, when, where and why.

QUESTIONS TO ASK DURING CONSULTATION

- Could you walk me through your current makeup routine?
- What foundation/powder do you currently use?
- What do or don't you like about it?
- What results are you looking for from this product?
- What type of coverage do you prefer (matte finish or glow)?
- How are you applying your face makeup at home?
- What concerns do you have with your skin?

ORGANIZE AND SANITIZE

- Have kit clean, organized and displayed
- Secure working space to mix blend
- Clipboard with Client Surveys, Q&A, etc.
- Sanitize hands in front of client (always have anti-bacterial visible)
- Make sure foundation brush is clean
- Makeup sponges/Q-tips handy to test base

- Mixing accessories ready
- Makeup Remover Towelettes for client to use
- Skintelligence[®] pH Skin Normalizer used to mist on face prior to makeup application
- Motives® Complexion Perfection Face Primer to apply prior to custom blend
- Any of your other favorite products accessible to sample

LIGHTING

Lighting is very important. If you have natural light, set up the counter display so that you can position your client facing that source of natural light. If you do not have natural lighting, then purchase full-spectrum lights. OttLite makes tabletop full-spectrum lamps.

| 15–20 ml | 1/2 oz cheek/bronzer | | | |
| 1 large scoop | 2.5 ml | | | |
| 2 large scoops | 5 ml (1/8 oz concealer) | | | |

KEY BENEFITS

- Mineral-based formula infused with botanicals provides long-lasting coverage with a lightweight feel
- Ideal for all skin types
- Includes modifiers and enhancers to further customize foundation and target specific concerns
- Oil-, talc- and fragrance-free; non-comedogenic
- Skin maintains its natural color/tone

<u>BASES</u>

A mineral base infused with botanicals to soften and smooth, this oilfree formula leaves skin shine free and picture perfect. Ideal for individuals with normal to oily and/or sensitive skin. Offers greater coverage in a lightweight, powdery finish.

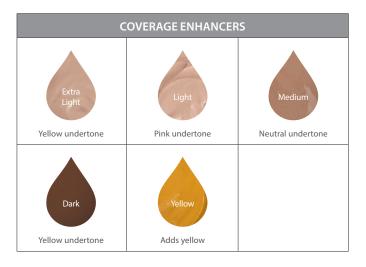

- All bases are 11% pigmented (Average sold in market is approximately 6-7%)
- Bases start with an SPF 6-8
- Oil-, talc- and fragrance-free; non-comedogenic

MODIFIERS

- Sunscreen: Used to increase the SPF level of the foundation. *Ethylhexyl* methoxycinnamate and benzophenone are key ingredients well-known for their ability to help protect the skin from the damaging effects of the sun.
 Usage: 5 ml = SPF 10–12 or 10 ml = SPF 14–16
- Double Back Beauty Balm: Five-in-one cream that primes, hydrates, lightens, firms and visibly improves the look of skin. *Dimethicone* and *aloe vera* condition skin for a smoother, softer apperarnace. *Licorice root extract* brightens and soothes skin for a more even appearance, while *retinol* helps to reduce the appearance of fine lines and wrinkles for firmer-looking skin and helps to even skin tone for a more youthful appearance. *Ethylhexyl methoxycinnamate* and *tocopheryl* help protect

the skin to maintain a healthier appearance. **Usage:** 15 ml per foundation

- Thinner: Used to sheer foundation base for lighter coverage
 Usage: 5 ml for sheer foundation; up to 15 ml for tinted moisturizer
- Coverage Enhancer: Used to increase the foundation from medium coverage to maximum coverage. This is 28% pigment.
 Usage: 1–2 large scoops for full coverage

- Mattifier: Gives foundation a powder finish. It is ideal for camera-ready makeup or those with oily skin. *Kaolin* (French clay) is an absorbent with a mattifying effect that helps keep a shine-free finish (should not use a pump). Usage: 5 ml per foundation (2 large scoops)
- Pearl: Lightens and cools foundation; gives a luminous and lightdiffusing finish perfect for an illuminating foundation.
 Usage: 2–4 pumps per foundation
- Fringe Benefit: Locks in moisture, smoothes and supports the appearance of skin texture. *Glycerin* and *dimethicone* work in harmony to smooth skin, reduce the appearance of fine lines and restore radiance for healthier-looking skin. Helps the foundation glide over any skin imperfections. Use under or added into foundation.
 Usage: 2–4 pumps per foundation (must be added last before filling)

Usage: 2–4 pumps per foundation (must be added last before filling bottle due to swelling of product)

 Sheer Porefection Primer: Lightweight, matte primer that smoothes skin and minimizes the appearance of pores. *Papaver rhoeas (poppy) extract* firms the appearance of skin, while *glycerin* maintains moisture in the skin. *Tocopheryl* is a well-known antioxidant vitamin that protects the skin to keep it looking healthy and more youthful.
 Usage: 2–4 pumps per foundation

 Whipping Crème: Create airy, sponge-like textures for crème foundations, blushes and bronzers, highlighters, and eye shadows.
 Usage: 3–6 drops (increase drops one at a time to desired consistency; if product becomes too thick, add 1–2 pumps of thinner). Note, product will thicken slightly upon sitting.

SKINCARE ADDITIVES

• Ultra Firming Botanical Complex: This botanical complex gives a tighter, firmer appearance to skin that will last throughout the day. *Hydrolyzed soy protein* softens and smoothes the skin, giving it a more radiant appearance.

Usage: 1 ml per foundation

 Hydrator: Utilizes sodium PCA to help restore hydration and deliver water to the skin. It is recommended for all skin types, and especially dry skin.

Usage: 0.5 ml per foundation

• Oil Control: Contains a combination of extracts that work to help control oil, while providing purifying and calming qualities. It is recommended for oily skin.

Usage: 0.5 ml per foundation

- Ultra Soothing Botanical Complex: Botanicals soothe skin and help to reduce the appearance of redness. It is recommended for sensitive skin. *Centella asiatica extract* is reported to have antioxidant and soothing properties that protect and calm skin, while *Calendula officinalis flower extract* conditions and soothes skin.
 Usage: 1 ml per foundation
- Copper Peptide Multi-Mineral Complex: Minerals support normal collagen and elastin to diminish the appearance of fine lines, improve the appearance of skin and promote hydration.
 Usage: 1 ml per foundation

TONERS

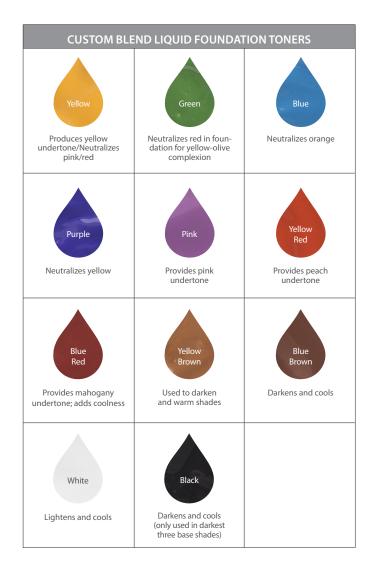

The three functions of toner:

1. Adjust/perfect the depth (lightness/darkness)

- Add white to lighten
- Add yellow brown to darken and add warmth
- Add blue brown to darken and cool
- Add black to darken
- 2. Perfect the base shade by adding toner to neutralize (ie., eliminate) unwanted pigment to base
 - If you see pink, add yellow or green
 - If you see yellow, add purple
 - If you see peach, add blue
- 3. Match your client's natural undertone(s)
 - If you see pink, add pink
 - If you see yellow, add yellow

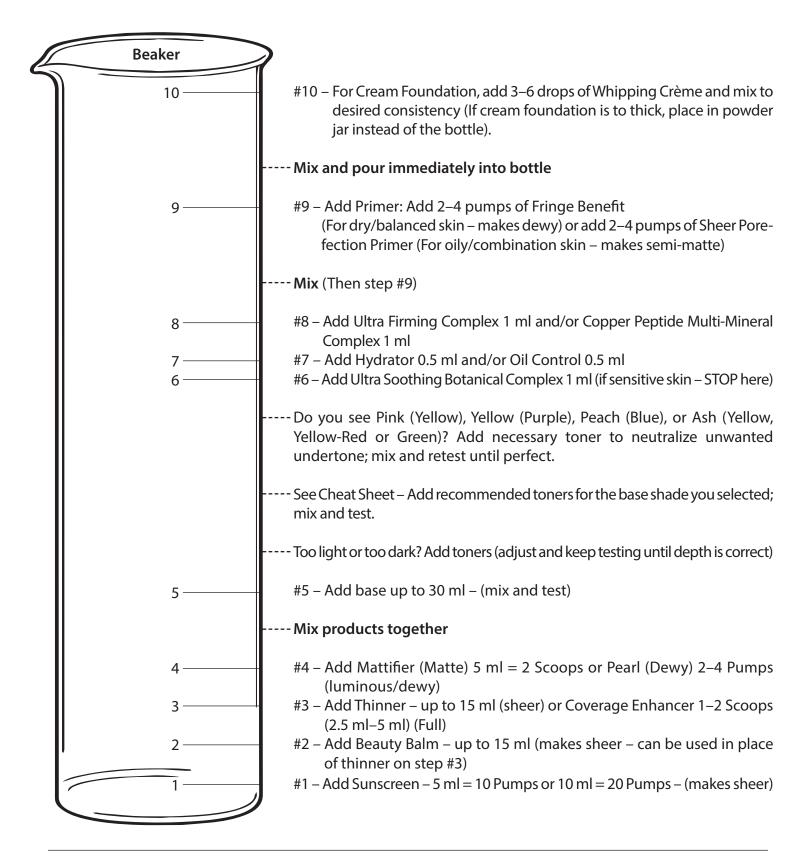

- If you see peach, add yellow-red
- If you see 'olive', add yellow and green
- If you see burgundy, add blue-redlf you see pink, add pink

Use as a guide in determining the right shade of toner to use in a foundation:

FOUNDATION CHEAT SHEET STEPS

Follow these steps from the bottom (#1) to the top (#10) when filling the beaker

LOREN RIDINGE

PRODUCT INFORMATION CUSTOM BLEND MINERAL POWDER

CUSTOM BLEND MINERAL POWDER CALIBRATIONS

| POWDER | | | | |
|---|-------------------|--|--|--|
| 3 teaspoons | Large Powder Jar | | | |
| 1 ¹ / ₂ teaspoons | Medium Powder Jar | | | |
| 1/2 teaspoon (4 dashes) | Small Powder Jar | | | |
| 1/8 + 1/8 teaspoons | 1/4 teaspoon | | | |
| 1/4 + 1/4 teaspoons | 1/2 teaspoon | | | |
| 1/2 + 1/2 teaspoons | 1 teaspoon | | | |
| 1/8 teaspoon | 1 dash | | | |

KEY BENEFITS

- Made exclusively from micronized minerals for exceptionally silky texture
- Give long-lasting coverage with a lightweight feel
- Micro-pulverized (cut in one-millionths then pulverized) minerals apply smoothly and float across the skin without settling into fine lines and wrinkles
- Contain micronized titanium dioxide and zinc oxide, which protect
 without irritating the skin
- Oil-, fragrance-, dye-, bismuth oxychloride- and talc-free, and non-comedogenic
- The natural earth minerals create a breathable barrier that protects and promotes healthy-looking skin
- Skin maintains its natural color/tone

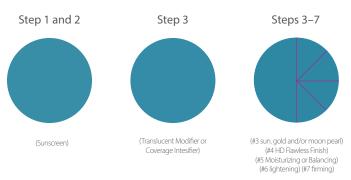

BASES

Provide medium, long-lasting coverage that is lightweight and natural. Ideal for individuals with sensitive and reactive skin.

- All bases are medium coverage with a matte finish
- Bases start with an SPF17

VISUAL TO HELP YOU CREATE A DUPLICATABLE FORMULA

After measuring above desired additives, fill in the rest with base shade (as referenced in step #8).

Tips on Measuring:

Draw this on your Blending Paper. Each circle represents 1 teaspoon. Utilize this visual to help you keep track of what you've added. Then make notes on your formula sheet.

MODIFIERS

Use to change the coverage of the powder.

- SPF Amplifier: Increase SPF coverage to protect skin Usage: 1 teaspoon = SPF 6, 1/2 teaspoon = SPF 3
- High Definition Flawless Finish: Creates a soft-focus effect in an invisible, natural finish that softens lines and enhances the look of the complexion. *Mica* reflects light away from skin imperfections for a more youthful-looking complexion.
 Usage: 1/8 teaspoon
- Translucent Modifer: Decreases coverage to create a sheer formula
 Usage: 1–2 teaspoons
- Medium Coverage Intensifier: Increases coverage to full
 Usage: 1 teaspoon

Use to add luminosity or glow.

 Sunlight Gold: Adds golden iridescence to foundation powder, blush, highlighters and bronzers
 Usage: 1/8–1/4 teaspoon depending on the formula

 Moonlight Pearl: Adds a pearl iridescence to foundation powder, blush and highlighters
 Usage: 1/8–1/4 teaspoon depending on the formula

SKINCARE ADDITIVES

- Moisturizing Complex: Increases hydration and delivers moisture for smoother-looking skin. *Cassia angustifolia (senna) seed polysaccharide* is a botanical polysaccharide that forms a protective film on the skin that binds water and fills up fine lines. It helps to moisturize the skin and improve the complexion for a more vibrant and youthful appearance. Usage: 1/8 teaspoon achieves maximum results
- Balancing Complex: Helps promote normal oil to maintain a flawless, matte finish throughout the day. *Niacinamide* helps maintain normal oil production and helps the skin maintain a brighter, more even complexion. Usage: 1/8 teaspoon achieves maximum results
- Firming Complex: Promotes skin firmness and helps maintain elasticity to reduce the appearance of fine lines and wrinkles. *Glycerin, Pisum sativum (pea) extract* and *algae extract* work together to condition skin for a softer, smoother appearance.

Usage: 1/8 teaspoon achieves maximum results

• Skin Lightening Complex: Helps reduce the appearance of dark spots for improved skin clarity and more even skin tone. Extracts work to condition skin while brighteners help to maintain a healthy, youthful-looking appearance.

Usage: 1/8 teaspoon achieves maximum results

TONERS

Usage: 1 smidgen; add more as needed. Toners are highly concentrated ,so a little goes a long way.

The three functions of toner:

- 1. Lighten and darken
- 2. Camouflage and correct
- 3. Maintain undertone of the skin

Use the following as a guide in determining the right shade of toner to use in a foundation:

| CUSTOM BI | END MINERAL POWD | PER TONERS |
|--|---|--|
| Amber (Yellow) | Jade (Green) | Lapis (Blue) |
| Produces yellow under- tone/Neutralizes pink/red | Neutralizes red in foundation | Neutralizes orange or peachy tones |
| Amethyst (Purple) | Rose Quartz (Rose Pink) | Sunstone (Yellow Red) |
| Neutralizes Yellow | Provides pink undertone and cancels yellow; cools | Provides peach undertone; brightens skin |
| Tourmaline (Bright Pink) Neutralizes green; great for blush | Tiger's Eye (Yellow Brown) Used to darken and warm shades | Alabaster (White) Lightens without changing the undertone |
| Onyx (Black) Darkens and cools | Agate Blue Brown) Used to darken and cool shades | |

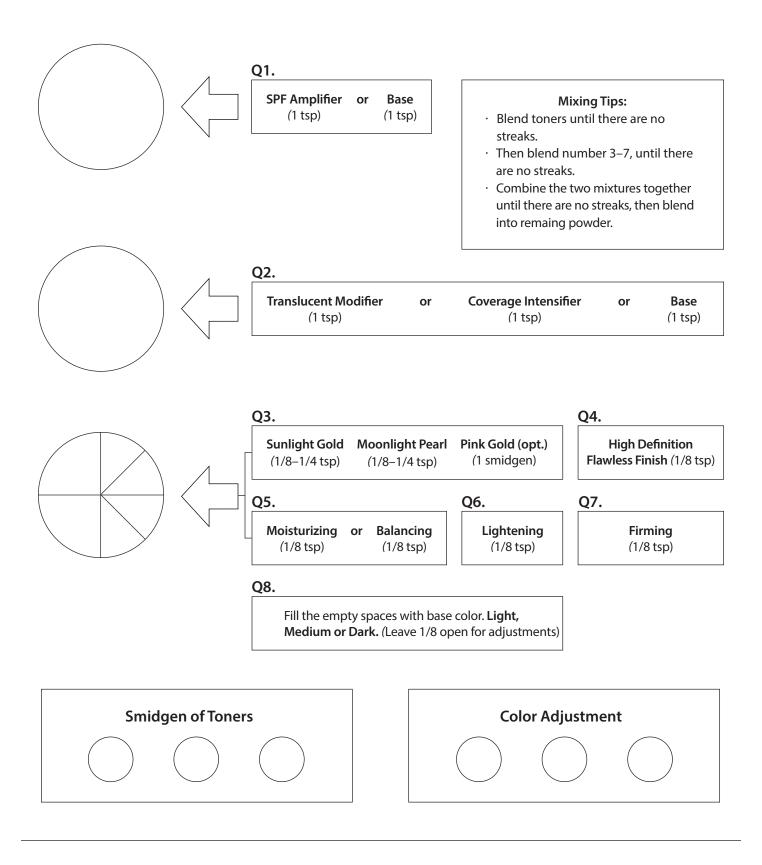

<u>FROSTS</u>

Use to add movement and iridescence.

- Pink Gold: Adds pink iridescence with a golden undertone
- Diamond Dust: Adds movement while remaining true to color
- Garnet: Cools and adds red tones
- Copper: Warms and adds rusty earth tones
 Usage: Varies depending on formulation

MOTIVES CUSTOM MINERAL CHEAT SHEET

Place product on top of selection and record on circles below.

TIVES

LOREN RIDINGER

INCORPORATING TONER CHEAT SHEET

If you are new to custom blend and/or color theory and find yourself confused, here is a basic, duplicatable way to incorporate mixing in toner.

- Yellow: Represents human skin, neutral pigment (SKIN)
- **Red:** Represents a healthy, bright complexion (BLOOD)
- Blue: Represents depth/deep or cool undertone (VEINS)

When mixed together, as primary colors, this will all neutralize to brown. So, wouldn't it make sense to add all of the above to incorporate our natural undertones and further customize a product? If you are a professional makeup artist or understand and love color theory, you certainly don't need to use this "cheat sheet." It is intended to help beginners realize that adding color to customize is important. And, when mixed together, they all neutralize one another.

Again, it's just a starting point. Even if you choose to use this cheat sheet, you may still need to add more color to perfect the base shade, complement one's natural skin tone or provide depth. Please refer to the chart below and for more detail, refer to the Motives[®] Custom Blend Survey.

CREATING TRIAL SIZES AND CONCEALERS CUSTOM BLEND LIQUID FOUNDATION

FOLLOW THE SAME STEPS AS MAKING A FULL BOTTLE

For base and additive combination, use total of 12 pumps.

Sample:

- X pumps (Bases, Thinner, Sunscreen, Beauty Balm) Max of 12
 - x pinch from metal spoon set (Mattifier)
 - x smidgen from metal spoon set (Coverage Enhancer)
- X drops (Toners, Primer, Skincare Additives)

CONVERTING TRIAL TO A FULL SIZE

- 1 pump = 2.5 ml
- 1 drop = 1 pump
- 2 drops = 0.5 ml (Oil Control & Hydrator)
- 4 drops = 1 ml (Ultra Firming / Copper Peptide / Ultra Soothing)

CONCEALERS

Customize:

- 1 scoop Coverage Enhancer(s) (closest to skin tone) + 2-4 pumps Thinner / Fringe Benefit or a combination of the two
- 1-2 pumps toner

Coverage Guidelines:

| Light Concealer: | Medium Concealer: | Full Concealer: |
|--------------------------|--------------------------|--------------------------|
| 1 scoop Coverage | 1 scoop Coverage | 1 scoop Coverage |
| Enhancer + 4 pumps | Enhancer + 3 pumps | Enhancer + 2 pumps |
| (Thinner/Fringe Benefit) | (Thinner/Fringe Benefit) | (Thinner/Fringe Benefit) |

Skin Type Modifier Guidelines:

- Oily skin: Thinner
- Normal skin: Thinner/Fringe Benefit Combination
- Dry/Mature skin: Fringe Benefit

Guideline for Color Bases:

- Ivory: Extra Light + 1 pump White
- Porcelain: Light + 1 pump White
- Beige: Light + 1 pump Yellow/Brown
- OR
- Beige: Medium + 1 pump White and 1 pump Yellow
- Tan: Light + 1 pump Yellow-Brown
- Tan: Medium + 1 pump Yellow-Red
- Deep: Yellow / Dark Combination
- Hazelnut: Dark / Yellow Combination + 1 pump Blue-Red
- Espresso: Dark + 1 pump Blue-Brown

FIVE STEPS TO MIXING CUSTOM CONCEALERS:

- 1. Discuss and determine skin type and desired coverage with client
- 2. Determine Coverage Enhancer base and add 2–4 pumps of appropriate modifiers (Thinner and/or Fringe Benefit)
- 3. Mix and test movement and coverage
- 4. Add color pigments to achieve desired depth and tone (using this guide)
 - Color Correction:
 Yellow-Red: for dark circles that are blue-grey
 Yellow: hides blue-purple veins in translucent skin
 Green: hides blemishes and redness
 Yellow and Green: camouflages distended capillaries
- 5. Mix and test desired tone

(Add 1 drop of Hydrator if skin under eye area is dehydrated, unless client is prone to puffiness.)

| 7.5 ml = 1/4 oz | 16 drops = 1 pump |
|-----------------|-------------------|
| 715 ml = 1/2 oz | 1 pump = 0.5 ml |
| 30 ml = 1 oz | 2 pumps = 1 ml |

AIRBRUSHING WITH CUSTOM BLEND prep, technique and application

AIRBRUSHING

Base shade + Toner and equal parts of a solution to dilute (Setting Spray, Rose Water, etc.)

| FOUNDATION | BLUSH | EYE SHADOW |
|--|--|------------------------------------|
| 1 equal part blended Foundation and/or blended Color Toner | 1 equal part blended Color Toners | 2 parts of blended Color Toners |
| 1 equal part Setting Spray or otherwise | 1 equal part Setting Spray or otherwise | 1 part of Setting Spray |

INTRODUCTION TO AIRBRUSH APPLICATION

- The main purpose for airbrush application is to ultimately provide the client with a smooth, long-lasting, lightweight finish.
- With a little practice, you can achieve a well-defined, photo-ready look in a fraction of the time as traditional application.
- Once you've learned the mixing theory and technique, there is no limit to the different colors and looks you can achieve.

AIRBRUSHING APPLICATION SKIN PREP

- Make sureskin is properly cleansed, to ned and moisturized (Skintelliegence[®] is a great line to use, as it's hypo-allergenic and the most affordable).
- Apply Motives[®] Complexion Perfection Face Primer and Insta-Smooth.
- Apply Motives No More Shine (if necessary).

Note: Airbrush applications will look best on hydrated, smooth, hair-free skin. If client does have facial hair, it can adhere to each individual hair and make them look more fuzzy. Also, on dry skin, it can make it look more flaky. So be sure to complete a comprehensive consultation, and address proper skincare/maintenance prior to a special event where airbrush application is requested.

AIRBRUSH APPLICATION MIXING SOLUTION

- Using the 1 oz liquid sample bottle (from ma Gear), measure out 1 cc of Custom Blend (base and toner), and add 1 cc of distilled or Rose Water. Mix well.
- The goal is to dilute the formula just enough to be able to pass through the airbrush stylus without clogging it, but not so much that coverage gets lost. It's not recommended to use more than 2 parts water to 1 part product to dilute. If more is needed, try adding Thinner instead.

AIRBRUSH TERMINOLOGY

- Compressor: the source for compressed air
- Stylus: the pen-like apparatus that is used to apply the formula
- Barrel: the cup on the stylus that holds the formula
- Pin or Needle: an internal part that helps to disperse the color properly
- Trigger: the lever that controls the flow of product
- Back Flow: the technique used to clear a clog, mix product while in the barrel or to clean the stylus. It is done simply by placing your finger over the nozzle and pulling the trigger, producing bubbles in the barrel.

AIRBRUSH APPLICATION ORDER

- 1. Motives Complexion Perfection Face Primer and Insta-Smooth
- 2. Concealer
- 3. Contour
- 4. Highlight
- 5. Base
- 6. Blush
- 7. Eyes
- 8. Set (Powder)
- 9. Finishing Spray

| AIRBRUSH APPLICATION SETUP | | | | | | |
|------------------------------|--|--|--|--|--|--|

| Syringes or Dropper | Contour | | | | | |
| Beaker and Stirrer | Highlighter | | | | | |
| Rubbing Alcohol | Powder | | | | | |
| Formula Containers | Mixing Container | | | | | |

AIRBRUSH AND CONTOUR

Evaluate your client's needs for contouring; here are the most common places to contour. This can take place before or after your base application.

- Selecting the appropriate colors is based solely upon the client's skin tone and your best judgment.
- Using the mixer beaker or 1 oz bottle, measure out 1 cc of Base that most closely matches the client's own skin tone.
- Next, measure out 1/2 cc of the base that is two to three shades darker.
- At this point, you can add a drop or two of another toner to "tweak" the color to prevent it from becoming too severe.
- Add 2 cc of water. MIX WELL.

CONTOUR

HIGHLIGHT

STEP 3: CONTOUR & HIGHLIGHT

AIRBRUSH AND HIGHLIGHT

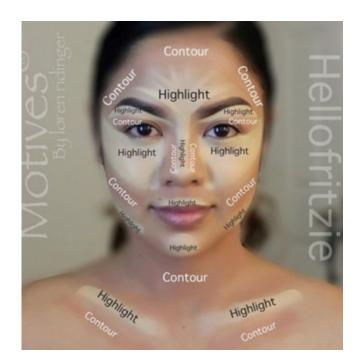

Highlighting is important since it gives the face a lift. This can take place before or after your base application.

 For light skin: using the mixing beaker or 1 oz bottle, measure 3/4 cc Base that is 2–3 shades lighter than skin tone. You can add no more than 1–2 drops of Pearl along with 2 cc of water. MIX WELL

Note: Omit Pearl for dark skin. Try Sunlight Gold Custom Mineral Modifier instead.

BASIC AIRBRUSH APPLICATION

- Step 1) Begin with a clean face. Press the ON button; you will immediately feel air coming out of the stylus. NOTE: The product will not be delivered until you pull the trigger, but air will always flow out. Place a few drops of formula into the barrel of the stylus.
- Step 2) Apply a VERY LIGHT first coat of airbrush foundation all over your face. REMEMBER: You always want to place the foundation in light sweeping layers, never a heavy application. Less is always more.
- Step 3) Apply the second or added coats of foundation until you have achieved the desired results.
- Step 4) Contouring and highlighting can take place before or after your base application, depending upon the desired results.
- Step 5) Apply blush and then seal it all with Motives Luminous Translucent Loose Powder.
- Step 6) Now move on to eyes and lips. Finish it all with Motives 10 Years Younger Makeup Setting Spray or No More Shine Makeup Setting Spray.

CUSTOM BLEND AIRBRUSH FOUNDATION

- Quick/Easy Blend: Using a Motives® Custom Blend Foundation Bottle (1fl oz)
 - 15 ml of Motives 10 Years Younger Makeup Setting Spray
 - 15 ml of custom airbrush blend

Example:

• If your client's custom blend formula is:

(20 ml Beige and 10 ml Porcelain + 1 pump Yellow and 1 pump Pink) then their airbrush formula would be:

(10 ml Beige and 5 ml Porcelain + 1 drop Yellow and 1 drop Pink)

Note: You may need to cut down formula to only include base shades and toners (toners will go in as drops, not pumps)

AIRBRUSH WITH MOTIVES CUSTOM MINERAL POWDER

- On the occasion that you want/need a more matte, flawless finish, you can incorporate our Custom Blend Mineral Powder in your airbrush formulation.
- Most airbrush gun reservoirs hold about 1/2 tsp; however, think conceptually in "parts" vs. exact measurements so that this is relevant to any machine you may be using.
- Custom Airbrush Blend: (to be mixed in a separate container, not in the reservoir/machine!)
 - 1/2 part liquid mixture
 - 1/2 part color mixture (custom mineral powder)
- Liquid Mixture:
 - 1/4 straight glycerin (available at any drugstore)
 - 1/4 Motives 10 Years Younger Makeup Setting Spray
 - 1/2 distilled water
- Color Mixture: Custom Mineral Powder base shade(s), plus toner.
 Example: If your client's custom blend formula is:
 1 tsp Translucent Modifier
 - 1 1/4 tsp Medium Base
 1/2 tsp Light Base
 1/8 tsp (dash) Lightening Complex
 1/8 tsp (dash) Sunlight Gold
 (smidgen) Rose Quartz
 (smidgen) Amber
 (smidgen) Tigers Eye
 Then (think in 1 tsp or 1 "part") their airbrush formula would be:
 3/4 Medium Base
 1/4 Light base
 smidgen each of Rose Quartz, Amber and Tigers Eye

Note: More powder = more coverage/matte finish More liquid = more sheer/dewy finish

AIRBRUSH CARE AND MAINTENANCE

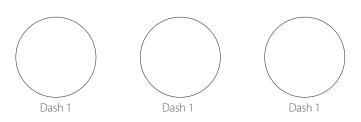

- Properly cleaning your stylus after each use is vital to it performing properly. Neglecting to do so may result in spattering and/or clogging.
- Cleaning Solution: 2 oz of water + 4 drops Snap® Heavy Duty Concentrate + 1 drop Snap Disinfectant
- Place a few drops in the barrel, back flow, then spray formula out.
- Remove any remaining product with a cotton swab.
- An occasional thorough cleaning can be done by removing the nozzle head and/or removing the pin depending upon which unit you use.

CREATING LIP STAINS HOW TO CREATE CUSTOM LIP STAIN COLORS

LIP STAIN

Base on 3 dashes total of any combination of Base and Toner.

Use the following as a guide in determining the right shade of base and toner combination.

HOW TO CREATE CUSTOM LIP STAIN COLORS

Questions to ask your client:

- 1. What tone of color do you like?
 - Pink (Tourmaline as a base)
 - Peach (Sunstone as a base)
 - Neutral / Brown (Tigers Eye as a base)
- 2. What depth (light to dark) would you prefer your lip stain shade to be?
 - Light (2 dashes of Alabaster and 1 dash color tones)
 - Medium (1 dash of Alabaster and 2 dashes color tones)
 - Dark (3 dashes color tones)

Now mix up your 3 dashes of color and then complete customization (if desired) with these last couple questions. Try to limit to 4 smidgens so that it all fits in the container.

3. Would you like to further customize the color? (add in smidgens)

- Lapis (adds berry/purple or cuts peach)
- Amber (adds warmth)
- Rose Quartz (adds mauve-deep pink and purple tone)
- Onyx (adds depth)

4. Would you like to add shimmer to your lip stain? (add in smidgens)

- Sunlight Gold (soft and neutral glow)
- Moonlight Pearl (movement and luminous shimmer)
- Pink Gold (healthy glow)
- Diamond Dust (clear sparkle)
- Garnet (deep red shimmer)
- Copper (intense gold shimmer)

APPLICATION GUIDE

- 1. Exfoliate lips with Motives® Lip Pumice
- 2. Moisturize lips with (Motives Vitamin E Lip Treatment, Motives 40FY® Lip Treatment, Hydrating Lip Balm, etc.)
- 3. Spray Motives 10 Years Younger Makeup Setting Spray on a synthetic lip/concealer brush
- 4. Dip brush into loose mineral powder and apply to lips.

Remember Your Goal

- Identify two business partners
- Develop 10 new customers
- Sell a minimum of \$85.00 per guest
- Identify a new host

Pre Event

- Decide on a date (the best time is right after work: e.g., 6:00 p.m.)
- Host: invite 30+ people personally/by phone and send email to

follow up

- Confirm presenter by phone the day before or day of the event
- Get the word out to ensure a good turnout and successful event
- Set up Custom Blend Liquid and Powder products on a display table
- Set up a separate table for applying makeup
- Print out all required handouts
- Display other products: skincare and other Motives® products
- Include a 30-minute social time as people arrive
- · Start promptly, even if all guests are not there
- Blend Your Beauty Event is one hour only total time is two hours, including social time and closing

Meet and Greet (one-half hour)

- Greet each guest
- Hand out name tags
- Hand out folders and include inside:
 Blend Your Beauty Survey and Client Record Card
 Ask them to fill out the Blend Your Beauty Survey before the presentation
- Serve MochaTonix[®] and TLS[®] Shakes in kitchen
- Serve snacks (nothing messy), e.g., cheese and veggie tray

New UnFranchise® Owner or Host/Hostess

- Welcome and thank everyone for coming
- Share two-minute commercial
- Introduce presenter and have them give their two-minute commercial
- Presenter have guests introduce themselves (have them reference what they filled out in the Blend Your Beauty Survey)
 - What they do and why they've come
 - One makeup item they can't live without
 - One makeup challenge they have

PRESENTATION

Explain why our Custom Blend Products are unique

Why Custom Blend? Because everyone is an individual with a unique coloring, skin type, personality, lifestyle and preference.

Custom Blend products are for everyone!

- Mineral based and infused with soothing, softening botanicals
- We can make a sheer-tinted moisturizer, medium-coverage foundation, or a full-coverage foundation that can cover tattoos or scarring.
- Oil-free, suitable for all skin types
- Talc-free, fragrance-free and non-comedogenic

- Includes modifiers and enhancers that allow you to further customize the foundation and target specific concerns; we can add oil control, hydrator or firming additives into the foundation
- All bases are 11 percent pigmented
- Average foundation base sold by competitors is approximately 6-7
 percent pigmented

What makes Custom Blend Powder unique?

- Made exclusively from micronized minerals for exceptionally silky texture
- Gives long-lasting coverage with a lightweight natural feel
- Micro-pulverized (cut in one-millionths then pulverized) goes on "velvety-smooth" and floats across skin; because this powder is lightweight, it's less likely to sink into fine lines and wrinkles
- Does not have the "powdery" or "ashy" look
- Talc-free
- Contains micronized titanium dioxide and zinc oxide, which are two minerals that provide sun protection without irritating chemical ingredients. Our mineral powders provide an SPF of 17-23, depending on the formula.

Mineral Powders are:

- Oil-free
- Fragrance-free
- Dye-free
- Bismuth oxychloride-free (white ingredient used to add luster)
- Non-comedogenic

Mineral powders form a protective barrier while allowing the skin to breathe, thereby promoting healthy-looking skin.

Explain there are three kits available for purchase tonight *Kit A*: \$95.00

Motives® Custom Blend Liquid Foundation Foundation brush to apply Setting spray

Kit B: \$85.00 Motives Custom Blend Mineral Powder Kabuki brush to apply Setting spray

Kit C: \$120.00 Motives Custom Blend Liquid Foundation Motives Custom Blend Mineral Powder Motives Foundation Brush Motives Kabuki Brush

Take one guest at a time and have them remove their makeup with a makeup remover wipe. Then mist the pH Normalizer on

their face to balance and hydrate prior to custom blend application. Then conduct a quick consultation and fill out the Custom Blend Survey as you go along. Start with the liquid and then set with the powder if they are purchasing both. Apply the blend on half of their face and have them apply it on the other half, so they leave feeling empowered to duplicate on their own.

You will want to go over the key benefits of the additional products (Motives Complexion Perfection Face Primer, Motives Insta-Smooth, Motives Pressed Bronzer — Miami Glow, Motives 10 Years Younger Makeup Setting Spray) that the guest will be using at the makeup station.

The guest will apply their own makeup in the following steps at this station:

- Prepare skin with moisturizer
- Apply Motives[®] Complexion Perfection Face Primer
- Apply Motives Insta-Smooth
- Apply Motives Custom Blend Foundation
- Apply Motives Custom Blend Powder
 - Apply Motives Pressed Bronzer in Miami Glow
 - Add any other makeup
 - Set with Motives 10 Years Younger Makeup Setting Spray

Remind them of sanitation etiquette

- No double-dipping
- Use disposables
- Use spatulas
- Use hand sanitizer

MOTIVES PERFECTING FACE PRIMER

Benefits of Complexion Perfection Face Primer

Explain that the surface of the skin is like an orange, the primer fills in all imperfections making the surface even and smooth like an apple to help the foundation glide on the skin and look more flawless

- Helps you obtain a flawless and more youthful appearance
- Helps your makeup glide on smoothly and last longer throughout the day
- Protects your skin from the environment and keeps pollutants and makeup out of your pores

MOTIVES INSTA-SMOOTH

Benefits of Insta-Smooth

- Fills fine lines and wrinkles (like spackling does for walls before paint)
- Provides a soft focus effect by creating a veil over the skin's surface
- Visible difference immediately for men and women alike

MOTIVES PRESSED BRONZER - MIAMI GLOW Benefits of Miami Glow

• Sun-kissed bronzer for any skin

- Easy to apply and soft color, but layerable for a more intense look
- Makes skin look healthy

MOTIVES® FOUNDATION BRUSH

Demonstrate how using a brush uses less product and saves money. Take any color of liquid foundation and put two circles on a mirror (about a little smaller than a dime). Next, take the makeup sponge and rub over the foundation to spread it on the mirror (only on half of the mirror). Then, take the Foundation Brush and go over the foundation on the other side of the mirror and spread it on the mirror. This will show how the sponge absorbed all the foundation, while the brush was smoother and didn't waste product.

MOTIVES KABUKI BRUSH

Demonstrate how using this brush gives a smoother, more even application of the powder. It buffs the powder on the skin and delivers a more flawless application.

MOTIVES $10\,\rm{YEARS}$ YOUNGER MAKEUP SETTING SPRAY

Share the top three benefits of 10 Years Younger Demonstrate on a guest the proper way to spray. Spray in a T-shape, fan with piece of paper, then spray in an X-shape and fan again.

- Helps reduce makeup slippage into pores, lines, wrinkles or scars
- Keeps makeup looking flawless day and night
- Fewer required touchups throughout the day
- Can be used in place of water for eye shadow liner and airbrushing
- Saves up to 50% of makeup usage

GO OVER THE BENEFITS

ISOTONIX OPC3® BEAUTY BLEND Code: 13997

- Supports a healthy complexion
- Supports a smooth, soft and even-toned complexion
- Promotes healthy functioning of the skin at the cellular level, which results in healthy, vibrant-looking skin
- Helps maintain healthy collagen production
- Helps maintain skin elasticity and moisture
- Helps maintain healthy hair and nails biotin

ULTIMATE ALOE[™] Juice

Strawberry Kiwi Code: 1285 (other flavors available)

- Promotes digestive comfort
- Supports a strong immune system
- Promotes normal healing

MOCHATONIX®

Cappuccino Flavor Code: 7807 (other flavors available)

- Advantra Z[®] helps to burn fat
- Promotes mental focus and memory
- Helps heighten energy and endurance
- Supports weight loss and control

Ending Activities

- Have a helper pass out the order forms
- Review forms and talk about:
 - Blend Your Beauty Survey
 - Explain the special offers
 - Remind them these specials are for TONIGHT ONLY!

Close

All other Beauty Advisors: Migrate around the room offering personal help to each guest.

Presenter: Already have a place set up where you can sit with guests one on one and help them fill out orders. (Presenter is NOT to do any more demonstrating but only to close orders for guests.)

Have Motives Order Forms (code: 100) available with specials, have Client Record and Receipt from Motives® Downloads.

Be sure to collect the Blend Your Beauty Event Surveys for each guest and pair with their custom blend survey / formula sheet(s). These documents are what you will 'build your book' with and store your client's information. So be sure to organize them all together in a binder or something similar. The fortune is in the follow-up and the event survey is a great way to follow up and upsell them on product, obtain referrals, book an additional consultation, etc. You'll also need the Custom Blend Survey / Formula Sheet to mix up additional blends as your clients re-order.

If you are doing an event as a team, then you only keep the documentation for the guests that you personally invited to attend. Work together to do call workshops, etc., to follow up with all guests who attended. Thank them for coming, make sure they are thrilled with their blends and comfortable applying them and offer to schedule a complimentary consultation or invite them to another event, etc.

Scripts

Let me offer three ways to make a purchase tonight:

1. If ______ does not have the items you want, ______ will order them and will deliver them, or they can be shipped to your door and you will get Cashback for your purchase. We will also make you a Motives Preferred Customer for future special deals.

2. _____, my favorite way to purchase is to buy wholesale. If you are interested in developing a weekly income, please let us know and we will get you more info.

Invitation Scripts:

Hi, ______. Do you have a minute? Are you doing anything next ______? Well, I/we came across this guy/ gal/professional/company that offers custom blend foundation/ powder that will match your skin perfectly with all-natural mineral ingredients. They are actually healthy for your skin and your skin will actually improve with continued use of them.

I/we are hosting a Blend Your Beauty Event here at my home on ______. I know you love makeup, and you always say how hard it is to find your perfect match.

I/we are really impressed. I want you to come over and check it out.
It is only an hour or so and it would mean a lot to me and we should have some fun, so will you come on ______ at ____?
I will be emailing an invitation and then I will call you the day before, or day of, to remind you.

Thanks so much.

Follow-Up Scripts

Review names list with new UnFranchise® Owner

Script for those who could not come

Hi, ______. I just wanted to follow up with you regarding the "Blend Your Beauty Event" I had at my house. It went so great, and I am so impressed with this product line and its ability to help people. I really did want you to be there at this special presentation, but maybe this is better and I can show you the information first-hand. What is your schedule like this week? (Would afternoon or evening be best?)

Script for customers who made a purchase

Hi, ______. Just wanted to follow up with you regarding your new cosmetics and/or skincare products. Have you started using them? How are they working for you? I am very excited about how much we can save on this awesome line of cosmetics and look great at the same time. If you have any questions, please don't hesitate to call. I will touch base with you in a few weeks to check in on you. Thank you for your business.

Water, Octyl Methoxycinnamate, Dimethicone, Jojoba Esters, Steareth-2, Steareth-20, Glyceryl Stearate, Ethylene/Acrylic Acid Copolymer, Acetyl Hexapeptide-8, Opuntia Ficus Indica (Prickly Pear) Fruit Extract, Prunus Amygdalus Dulcis (Almond) Oil, Citrus Medica Limonum (Lemon) Peel Wax, Hydrogenated Vegetable Oil, Glycyrrhiza Glabra (Licorice) Root Extract, Arctostaphylos Uva Ursi (Bearberry) Leaf Extract, Mitracarpus Scaber Extract, Glycerin, Butyrospermum Parkii (Shea) Butter, Simmondsia Chinensis (Jojoba) Seed Oil, Aloe Barbadensis Leaf Extract, Cetyl Esters, Squalane, Stearyl Alcohol, Isopropyl Jojobate, Jojoba Alcohol, C12-15 Alkyl Benzoate, Tribehenin, Ceramide 2, PEG-10 Rapeseed Sterol, Palmitoyl Oligopeptide, Palmitoyl Tetrapeptide-7, Cucumis Sativus (Cucumber) Extract, Lycium Barbarum (Goji Berry) Fruit Extract, Euterpe Oleracea (Acai) Fruit Extract, Camellia Sinensis (Green Tea) Leaf Extract, Chamomilla Recutita (Matricaria) Flower Extract, Lonicera Caprifolium (Honeysuckle) Extract, Lonicera Japonica (Honeysuckle) Extract, Ascorbyl Palmitate, Retinol, Tocopherol, Pentylene Glycol, Butylene Glycol, Polysorbate 20, Lecithin, PEG-40 Stearate, Alcohol, Carbomer, Citric Acid, Potassium Sorbate, Sodium Benzoate, Xanthan Gum, Disodium EDTA

Sheer Porefection

Cyclopentasiloxane, Dimethicone Crosspolymer-3, Polysilicone-11, Opuntia Ficus-Indica (Prickly Pear) Fruit Extract, Papaver Rhoeas (Poppy) Extract, Silica, Isododecane, Glycerin, Lilium Candidum (White Lily) Flower Extract, Lonicera Japonica (Honeysuckle) Flower Extract, Tocopherol, Caprylic/Capric Triglyceride, Ascorbic Acid, Lonicera Caprifolium (Honeysuckle) Flower Extract, Simmondsia Chinensis (Jojoba) Seed Oil

Copper Peptide Multi-Mineral Complex

Water, Saccharomyces/Copper Ferment, Saccharomyces/Manganese Ferment, Saccharomyces/Zinc Ferment, Phenoxyethanol

Ultra Soothing Botanical Complex

Water, Propylene Glycol, Ruscus Aculeatus (Butcher's Broom) Root Extract, Calendula Officinalis Flower Extract, Aesculus Hippocastanum (Horse Chestnut) Extract, Hydrolyzed Yeast Protein, Centella Asiatica Extract, Panthenol, Ammonium Glycyrrhizate

Whipping Crème

Sodium Polyacrylate, Hydrogenated Polydecene, Trideceth-6

MOTIVES

CUSTOM BLEND MINERAL INGREDIENTS FOR MOTIVES®CUSTOM BLEND

Powder Base

Mica (Cl 77019), Titanium Dioxide (Cl 77891), Zinc Oxide, Kaolin, Zinc Stearate, Magnesium Carbonate May Contain (+/-): Iron Oxides (Cl 77491, Cl 77492, Cl 77499)

Powder Toner

Mica (Cl 77019), Kaolin, Zinc Stearate

May Contain (+/-): Titanium Dioxide (CI 77891), Iron Oxides (CI 77492, CI 77499, CI 77491), Manganese Violet (CI 77742), Red 6 (CI 15850), Red 7 (CI 15850), Red 27 (CI 45410), Chromium Oxide Green (CI 77288), Carmine (CI 75470), Ultramarines (CI 77007)

Powder Modifier

Mica (Cl 77019), Kaolin, Titanium Dioxide (Cl 77891) **May Contain (+/-):** Iron Oxides (Cl 77492, Cl 77491, Cl 77499), Carmine (Cl 75470)

Powder Coverage Enhancer - SPF Amplifier

Mica (Cl 77019), Titanium Dioxide (Cl 77891), Kaolin, Zinc Oxide May Contain (+/-): Iron Oxides (Cl 77492, Cl 77491, Cl 77499)

Powder Coverage Enhancer

Mica (Cl 77019), Kaolin, Titanium Dioxide (Cl 77891) **May Contain (+/-):** Iron Oxides (Cl 77492, Cl 77491, Cl 77499), Carmine (Cl 75470)

Powder Active – Skin Lightening Complex

Water, Lauryl Methacrylate/Glycol Dimethacrylate Crosspolymer, Butylene Glycol, Dicaprylyl Ether, Sodium Gluconate, Titanium Dioxide, Algae Extract, Citric Acid, Sodium Citrate, Waltheria Indica (Sleepy Morning) Leaf Extract, Ferulic Acid, Polyglyceryl-2 Dipolyhydroxystearate

Powder Active - Firming Complex

Water, Glycerin, Lauryl Methacrylate/Glycol Dimethacrylate Crosspolymer, Dicaprylyl Ether, Pisum Sativum (Pea) Extract, Titanium Dioxide, Algae Extract, Xanthan Gum, Polyglyceryl-2 Dipolyhydroxystearate

Powder Active - Moisturizing Complex

Water, Lauryl Methacrylate/Glycol Dimethacrylate Crosspolymer, Glycerin, Dicaprylyl Ether, Titanium Dioxide, Cassia Angustifolia (Senna) Seed Polysaccharide, Gellan Gum, Polyglyceryl-2 Dipolyhydroxystearate

Powder Active – Balancing Complex

Water, Lauryl Methacrylate/Glycol Dimethacrylate Crosspolymer, Dicaprylyl Ether, Niacinamide, Yeast Extract, Aesculus Hippocastanum (Horse Chestnut) Seed Extract, Titanium Dioxide, Algae Extract, Ammonium Glycyrrhizate, Panthenol, Zinc Gluconate, Caffeine, Xanthan Gum, Polyglyceryl-2 Dipolyhydroxystearate, Biotin

Powder Active - Flawless Finish High-Definition Powder

Silica, Mica (CI77019)

Powder Frost Mica (Cl 77019) May Contain (+/-): Titanium Dioxide (Cl 77891), Carmine (Cl 75470), Iron Oxide (Cl 77491)
