Healthy, Balanced Skin

Skintelligence® is an all-inclusive botanical skincare line with natural extracts that soothe skin, giving the appearance of healthy, vibrant skin.

Skintelligence provides alpha-hydroxy acids to help revitalize the skin. Plant-derived extracts like lemongrass and lavender help soothe skin naturally. Other brands claim they contain natural ingredients, but are harsh on the skin. Because of its natural properties, Skintelligence is great for even the most sensitive skin, offering ingredients that are mild yet effective. Creamy and light, Skintelligence is the most valuable botanical skincare around!

In any skincare regimen, the order of products is dependent on the texture of the product—apply the lightest-textured products first, ending with the heaviest. Apply treatments using a light patting motion, ensuring the entire face has been covered.

FOR BEST RESULTS, UTILIZE THE FOLLOWING REGIMEN DAILY.

STEP 1 cleanse	Cleanse with ① Skintelligence Hydra Derm Deep Cleansing Emulsion. First, wet your hands and face. Next, apply the cleanser to the face in circular motions (this cleanser does not foam). Leave the emulsion on the skin for one minute, and then rinse with water. Repeat morning and night.
STEP 2 tone	Toning is necessary for people with skin conditions like acne and excessive oiliness. Toning your skin helps to balance the moisture in the skin, making skin less oily. It is also considered a second step in the cleansing process. ② Skintelligence pH Skin Normalizer would assist this step. Holding the bottle 8 to 9 inches from the face, spray two to four times. Repeat morning and night.
STEP 3 detoxify	Apply ③ Skintelligence Facial Firming Masque to the face using clean hands, covering the entire face while avoiding the eye area. Leave the masque on for 10 minutes. Repeat two to three times per week to detoxify and firm the skin.
STEP 4 treat	Apply ④ Skintelligence Skin Perfecting Complex to the entire face, avoiding the eye area. Allow to penetrate the skin before applying moisturizer. Repeat daily.
STEP 5 & 6 moisturize	In the morning, apply ⑤ Skintelligence Alpha 24 Triple Revitalizing Complex to the face, avoiding the eye area, in a patting motion for environmental and sun protection. Repeat daily. In the morning and evening, apply ⑥ Skintelligence Daily Moisture Enhancer to the entire face in a patting motion, avoiding the delicate eye area. Repeat daily.

## Lip Sensation & Perfect Pout

### Lip Pumice

A powerful, resurfacing lip scrub that exfoliates lips, then provides instant hydration to quench your lips without a greasy feel. The formula works to rid the lips of dead cells that cause lips to chap and crack, so luscious lips are always achievable.

- Helps achieve smooth, luscious lips
- Allows for smoother application of your favorite Motives lipstick or lip gloss
- Acceptable for daily use

### DIY

A refined lip balm that soothes, re-plumps, hydrates and protects the lips. This lip balm also nourishes the lips, while providing moisture and hydration.

- Increases lip volume by up to 40 percent
- Helps lips appear fuller and more supple
- Helps define the contour of the lips
- Helps smooth the appearance of fine lines around lips
- Enhances the healthy appearance of lips
- Helps to minimize and prevent the appearance of future wrinkles

### Vitamin C Treatment

A high-shine treatment that enhances the natural color of the lips while offering essential nourishment. The smooth formula promotes suppleness and improves the definition of the lip area while preserving moisture. It can be worn alone or under one of your favorite Motives lip shades, lip glosses, or lipsticks.

### Vitamin E Lip Treatment

A lip treatment that corrects and hydrates the lips. It is fortified with vitamin E to help repair chapped lips to create soft, smooth hydrated lips that create a flawless canvas for any of your favorite Motives lipsticks, glosses or lip shines.

- Supports healing and protects the lips and delicate skin under the eyes
- Enriched Natural Emollients
- Works well with Lip Pumice

## Station 5— Let's Talk Beauty

Display for Picture Frame

**Inta-Smooth**  
 • Demonstrate only on the backs of everyone's hands • Fill face lines and wrinkles (like speaking clear for words before painting) • Visible difference immediately for men and women alike • Antioxidants promote healthy skin

**Eye Base**  
 • Demonstrate on the back of your hand • Remove a small amount of Eye Base with spatula • Using the Eye Primer Brush, apply a small amount of the Eye Base on the back of your hand • Take the Eye Shadow Brush and dip in eye eye shadow from the Motives Eyeshadow Palette or palette, using pressing and patting motions • Place the Eye Shadow on top of the side with the Eye Base, then place the shadow on an area without Eye Base, showing the side with Eye Base to more shadow and smoother • Neutralize unwanted discoloration in the eyelid • Hold eye shadow better and makes it last • Shadows will look like they're color

**Blush Bronzer Duo or Miami Glow Bronzer**  
 Ask all guests to point on their face where the sun naturally kisses their skin: forehead, nose, cheeks • Apply Miami Glow on top of guest's hand with a cotton ball (pad) • Sun kissed bronzer for any skin type • Easy to apply, buildable color • Adds a natural, healthy glow for flawless looking skin

**Luxe Precision Eye Line—Jet Black**  
 • Demonstrate with a small circle on the back of each person's hand • Ask them not to touch it until you say so — share benefits while product dries • Now say, "So, try to wipe it off. See how amazing this liner is?" • Easy application (smooth like a fine-ty marker) • Long wearing, will not smudge (smudge into on back of hands, not eyes) • Liquid liner in a pen, so you can make a line or thick line

**Essential Brow Gel**  
 • Take angle brush and show guests how to measure the perfect brow shape • There are three points (first, hold the brush at the side of the nose straight to the outer corner of the eye, that is where brows should start) • Second, hold the brush at the side of the nose up through the outer part of the peak that is where the arch should be • Third, take the brush at the side of the nose up through the outer part of the peak that is where the arch should be • Fourth, hold the brush at the side of the nose up through the outer part of the peak that is where the arch should be • Fifth, hold the
